Verification of you Dreambox's authenticity

Please note that the authenticity check of your Dreambox can only be done with the firmware version released 07-22-2009 and later. The firmware can be found at the downloadcenter on our homepage.

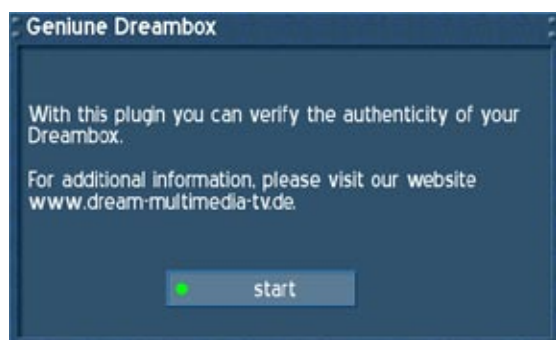

1. Press the **blue Options-Button**.

2. Select „**Genuine Dreambox**“ and press the **OK-Button**.

3. Press the **green Options-Button**. A 12-letter verification code will now be generated.

4. Please write this code down because it will be needed in the next step to verify the authenticity of your Dreambox.

5. Access our homepage at **www.dream-multimedia-tv.de**, click on the british flag and afterwards click on **"Certification"**, enter the verification code you wrote down and click **"Send"**.

Authenticity test

The Dreambox has evolved into one of the leading satellite and media receivers on the world market.

Not in the least due to the selection of premium components, stable software and customer-friendly support.

When using a genuine Dreambox, you can rely on knowing that the true promise of the latest functionality, best security and complete support is provided for our product, the Dreambox.

The purchase of a genuine Dreambox gives you the following advantages:

- You are guaranteed to obtain a technologically faultless and tested receiver.
- You are eligible for customer service by Dream-Multimedia.
- You benefit from the latest improvements and feature enhancements of the software.
- You can promptly install all newly issued software updates from Dream-Multimedia on your Dreambox without hesitation.

How can I find out whether my Dreambox is an original?

To verify whether you have a genuine Dreambox, Dream-Multimedia provides a quick and easy online verification, the authenticity test.

On your Dreambox you can find a plugin to generate a verification code. Please enter this displayed code in the field for the authenticity test.

Please enter the code:

2. - -

3.

6. If the verification code you have entered is correct the following information will be displayed:

- Dreambox model
- MAC address
- Production date
- Serial number

Please compare the following data with the tested Dreambox:

Model: DM600pvr

MAC address: 00:09:34:26:73:3d

Production date: 20070613

Serial number: 761304000019879

If this data matches your Dreambox, it has been successfully validated to be a genuine Dreambox built by Dream Multimedia.

Compare these infos with the sticker at the bottom of your Dreambox. Additionally you can find the same sticker on the original packaging of your Dreambox.
